FUNDS NOT COUNTED AS MATCHING

Funds may not be counted as match toward the grant listed in this print out. If there are projects/initiatives with more than one NRBG fund attached and the year assigned to the match fund is not the same as the year of the NRBG grant summarized by this print out, the dollars used from the match fund will not be counted towards the overall match for this Grant. Match funds not counted towards this NRBG, may be counted as match for an NRBG grant of a different year.

Feedlot Program

Polk COUNTY - Feedlot

1. Project Name: 2010 WP Feedlots Inspec. & Compl.

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: FL:Inspection & Compliance P

Initiative Year: 2010

Description:

Polk County will conduct the following; Conduct inspections at sites that have not been inspected since January 1, 2002. Feedlot prioritization by location: Shoreland, a TMDL watershed, a DWSMA, or some other formally designated area may be chosen.
Feedlot prioritization by size: Larger sized facilities such as 500 – 999 AU or 300 – 499 AU would be typical categories and may be particularly appropriate for counties, emphasizing land application evaluations. The county will inspect feedlots that, according to previous inspections, have not been maintaining manure management records. The county will conduct land application inspection with all inspections >300 AU. The county will inspect all registered sites that have never been inspected.

Actual Results:

Conducted inspections at sites that have not been inspected since January 1, 2002. Feedlot prioritization by location: Shoreland, a TMDL watershed, a DWSMA, or some other formally designated area may be chosen.

<u>FUND(s)</u>	<u>Budgeted</u>	<u>Approved</u>	<u>Spent</u>	<u>Remaining</u>	<u>Spending Window</u>	
1. 2010 MPCA Feedlot Polk County Match	1,000.00	1,000.00	1,000.00	0.00	1/21/10	1/21/10
2. 2010 Natural Resources Block Grant - Polk (COUNTY)	1,000.00	1,000.00	1,000.00	0.00	1/21/10	1/21/10
Totals:	2,000.00	2,000.00	2,000.00	0.00		

2. Project Name: 2010 WP Feedlots Permitting

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: FL:Permitting

Initiative Year: 2010

Description:

Polk County will use the list stated below for follow-up on pollution hazard evaluation which entails permitting. Conduct inspections at sites that have not been inspected since January 1, 2002. Feedlot prioritization by location: Shoreland, a TMDL watershed, a DWSMA, or some other formally designated area may be chosen.
Feedlot prioritization by size: Larger sized facilities such as 500 – 999 AU or 300 – 499 AU would be typical categories and may be particularly appropriate for counties, emphasizing land application evaluations. Review of the 1973 list and contact those who may be interested in feedlot fix-up's in those that have been abandoned. Polk County estimates 65 total site visits need to be conducted with the combination of the SWCD list and MPCA list. Please be advised these 65 site visits will not be completed with-in this program year, but will be used as a starting point to establish the status of these feedlots if applicable. Status such as still existing, a pasture operation, a feedlot, and most importantly not an existing or potential pollution hazard.

Actual Results:

Conducted inspections at permitted sites. These were interim permit sites and NPDES permitted sites
Feedlot prioritization by location: Shoreland, a TMDL watershed, a DWSMA, or some other formally designated area may be chosen.
Feedlot prioritization by size: Larger sized facilities such as 500 – 999 AU or 300 – 499 AU would be typical categories and may be particularly appropriate for counties, emphasizing land application evaluations.

3. Project Name: 2010 WP Feedlots Reg. & Inv

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: FL:Registration & Inventories

Initiative Year: 2010

Description:

Polk County plans to reach registration and/or re-registration and conduct manure land application within priority area goals by 2011. When landowners come into the office, the Polk County CFO's practice will be to register that feedlot with the landowner. Copy of registration form. The form will also indicate if feedlot inspection was or was not in compliance. Registration log (log must contain notation that producer was verbally notified of registration/re-registration). The information stored within this log will not be copied and distributed to the landowner, instead the CFO will inform verbally of the information. Registration receipt letter with Inspection Report copy will be made if the landowner comes in for an office visit, otherwise a copy will be mailed to the landowner.

Actual Results:

Reached registration and/or re-registration and conducted manure land application within priority area goals by 2010. Registration receipt letter and/or a copy was made if the landowner comes in for an office visit. Copy of registration form. The form will also indicate if feedlot inspection was or was not in compliance. Registration log (log must contain notation that producer was verbally notified of registration/re-registration). The information stored within this log will not be copied and distributed to the landowner, instead the CFO will inform verbally of the information. When landowners come in to the office, when of the procedures that Polk County CFO's practice is to register that feedlot with the landowner.

4. Project Name: 2010 WP Feedlots Complaints

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: FL:Complaint response

Initiative Year: 2010

Description:

Polk County will implement the following methods, practices, and timelines. Issue a Letter of Warning (LOW) or a Notice of Violation (NOV), including corrective actions and deadlines. Issue an Interim Permit including corrective actions and deadlines. Document in a letter to the owner that indicates another agency (NRCS or SWCD) is working to correct identified pollution hazards. Document in a letter to the owner the agreed upon fixes and a date when they will be done. Initial communication and or correspondence informing the producer of non-compliance. Follow-up contact/communication to evaluate producer progress. Decision to escalate compliance action where progress on corrective actions is not forthcoming.

Actual Results:

Issue a Letter of Warning (LOW) or a Notice of Violation (NOV)
Issue an Interim Permit
Document in a letter to the owner that indicates another agency (NRCS or SWCD) is working to correct identified pollution hazards
Document in a letter to the owner the agreed upon fixes and a date when they will be done.
Initial communication and or correspondence informing the producer of non-compliance.
Follow-up contact/communication to evaluate producer progress.
Escalate compliance action where progress on corrective actions is not forthcoming.

5. Project Name: 2010 WP Feedlots Staff Level & Training

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: FL:Staffing Level and Training

Initiative Year: 2010

Description:

The county completed a minimum of 18 continuing education units (CEU); each unit consisting of one hour of training related to Minnesota Rules Chapter 7020 competency areas: Regulating new construction; conducting inspections and evaluating compliance; handling complaints and reported spills; responding to air quality complaints, resolving identified pollution problems, communicating with farmers and the agricultural community.
(See Annual CFO Report Form Guidance document for more information about Training Performance credits.) All training sessions attended by the county must be submitted with the Supplementary Report Form

Actual Results:

The county completed a minimum of 9 continuing education units (CEU); each unit consisting of 50-60 minutes of training at MPCA sponsored trainings directly related to the following six competency areas: Regulating new construction; conducting inspections and evaluating compliance; handling complaints and reported spills; responding to air quality complaints, resolving identified pollution problems, communicating with farmers and the agricultural community.

6. Project Name: 2010 WP Feedlots Owner Assistance Goals

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: FL:Owner Assistance Goals

Initiative Year: 2010

Description:

Information at the Polk County Fair Booth in regards to Manure Management Plans, Land Application Records, spreading setbacks and abandoned basins. Submit a newsletter including information on abandoned basins. Submit more articles in the local papers regarding Manure Management Plans, Land Application Records, spreading set-backs and abandoned basins. Have information available on the SWCD web site, accessible to landowners. Conduct a joint Economics of Manure Workshop with neighboring SWCD's. Informational meetings with cooperation of other Conservation Partners (example, MN Extension Service, NRCS, etc.), for producers that require Manure Management Plans, Land Application Records and spreading set-backs of manure. Polk county intends to assist ALL Feedlot Owners within Polk County.

Actual Results:

Polk County will be emphasizing on land application and open lot run-off both at the time of inspection. Polk County's commitment to the landowners is to be the main contact for assistance for not only the MPCA feedlot program but also all other District programs. Identify abandoned basins in the county and seek funding assistance for the producers that qualify. Submit a newsletter including information on abandoned basins. Submit more articles in the local papers regarding Manure Management Plans, Land Application Records, spreading set-backs and abandoned basins. Have information available on the SWCD web site, accessible to landowners. Informational meetings with cooperation of other Conservation Partners (example, MN Extension Service, NRCS, etc.), for producers that require Manure Management Plans, Land Application Records and spreading set-backs of manure.

11. Project Name: 2010 CWM Administration

Module: Initiative

Reported By: Polk, East SWCD

Initiative Type: Admin/Coordination

Initiative Year: 2010

Description:

Carry out the duties of Polk County's Comprehensive Water Management Plan

Actual Results:

The Polk County Board of Commissioners delegated the East Polk SWCD the responsibilities of coordinating, assembling, writing and implementing the local water management plan. Results are updating the Water Management plan by convening a local work group, gather priority concerns and holding meetings. As coordinator, we are responsible for attending meeting, carry out the initiatives identified, doing the necessary link reporting.

Initiative Year: 2010

Polk COUNTY - LWM

Description:

Monitor 13 lakes that have DNR water elevation gauges.
 MPCA stream readings on 5 rivers.
 Continue the pilot educational project on rolling beans in Sletten township.

Actual Results:

The following lakes levels were read during the months of June, July, August, September and October: Badger,Cable,Cameron,Cross, Hill River, Maple, poplar, Sarah, Spring, Turtle, Union and Whitefish. These readings were sent to the MDNR Hydrologist.
 The follwing rivers were read during the months of April, May June, July, August, September, October and November for the MPCA Citizen Stream Monitoring Program: Sand Hill, Poplar, Lost and Clearwater and Hill River. Paramiters checked were Appearance, recreation sutibility,transperancy, stream gauge estimate, and stream temperature.
 Cooperating with the MN Extension Service, a site was picked to have a demonstration site in Sletten township to see the impacts of rolling beans on slope ground. The final report has not yet been released.
 Also checking DNR water depth on a well located in Hill River township for the months of July, August, September October, November and December.

15. Project Name: LWM Administrative Activities (West Polk)

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: Admin/Coordination

Initiative Year: 2010

Description:

Funds will be used to employ a Local Water Management Coordinator for West Polk County. This person shall implement the Polk County Comprehensive Local Water Management Plan and other programs that enhance and contribute to the goals for the implementation of the current plan, administering the Agricultural Best Management Practices Loan Program for West Polk County, and initiating the update of the Polk County CLWMP.

Actual Results:

The West polk SWCD employed a full-time staff person to administer the activities and directives alid out by the Local Waer Management Program and the Polk County Comprehensive Local Water Management Plan. Some of the activities conducted under this initiative were:

*Implementation of the Agricultural Best Management Practices Loan Program for West Polk County - 2009 2 applications were processed, processed applications have been significantly down the last few reporting years due to lack of funding for the program. There is landowner interest in the program, but under funded for the demand.

*Staff continued to work with the City of Climax on the Sand Hill River Fish Passage project within the municipalities limits. Staff assisted the City finding grants & grant agencies that would be applicable to the restoration & improvement of the City's trail system that is associated with the crossings.

*Staff worked with East Polk SWCD staff to assess the need to seek an extention of the Polk County Local Water Management Plan. An extention was granted by BWSR to extend the current plan for a two-year time period.

2010 Natural Resources Block Grant - Polk (COUNTY)

The West Polk Soil and Water Conservation District will initiate, participate and promote educational opportunities as they relate to the goals and objectives of the Polk County Comprehensive Local Water Management Plan. Some of these activities and methods used to accomplish this will be, but are not limited to;

- *West Polk SWCD Arbor Day Presentations and Celebrations
- *Rydell Area and Minnesota State Envirothons
- *Northwest Minnesota Water Festival
- *Classroom and Organization presentation/activities as requested

The West Polk Soil and ater Conservation District initiated, participated and promoted educational opportunities as the related to the goals and objectives of the Polk County Comprehensive Local Water Management Plan. Some of the methods and activities uded to accomplish these goals and activities were;

- *3 Arbor Day presentations/activities - outreach was to approximately 300 students, as well as teachers and staff.
- *Rydell Area Envirothon - staff assisted in the planning of the Rydell Area Envirothon. Staff conducted outreach to West Polk area school who were participating in the Rydell Area Envirothon. West Polk SWCD provided financial assistance to the Rydell Area Envirothon. Approximately 100 students participated in the Rydell Area Envirothon (35 students were from West Polk County).
- *State Envirothon - A member of the West Polk staff is a member of the Minnesota State Envirothon Committee and as such participates in the planning and presenting of the Minnesota State Envirothon.
- *Northwest Minnesota Water Festival - 2 members of the West Polk SWCD staff participated in the planning, coordination and presentation of the Northwest Minnesota Water Festival. West Polk SWCD also provided financial assistance to the overall expense of the the Northwest Minnesota Water Festival. In fiscal/reporting year 2009, ~490 fourth-grade students and thier teachers and supporting staff attended the Water Festival. Eighty-four of the students were from the West Polk SWCD area.

18. Project Name: '10 LWM Newsletters & Website

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: Education/Information Initiative Year: 2010

Description:

The West Polk Soil and Water Conservation District will publish two newsletters. The newsletters will be recieved by approximately 1400 households/organizations/businesses in West Polk County and the surrounding area. Newsletters will also be made available in other formats, ie the District's website. The West Polk SWCD newsletter will contain at least one article/information per issue related to the current Polk County Comprehensive Local Water Management Plan and/or Local Water Management Program and/or current water-related issues.

Actual Results:

Two West Polk SWCD newslaetters were published and mailed out to approximately 1350 households/businesses/organizations in the West Polk County area. The newsletters were also available on the District's website. These newsletters contained information regarding availble programs through the District; as well as NRCS/Federal conservation programs; relevant conservation news and information; Supervisor and Staff information; educational information and activities; and the District's Tree Program order form. The District also maintains a District website in conjunction with MASWCD Area I SWCDs.

<i>Description:</i>	<i>Actual Results:</i>
---------------------	------------------------

West Polk SWCD will participate, initiate and promote educational opportunities related to the Wetland Conservation Act, wetland issues, and other natural resource concerns. Methods used to accomplish this will be, but are not limited to, articles in the District's newsletter, area news publications, radio interviews and presentations. The West Polk SWCD will have at least two articles a year in the District newsletter relating to WCA and/or wetland issues. West Polk SWCD will provide a wetland-related learning station at its Environmental Education Days for sixth-grade students. West Polk SWCD will continue to participate annually in the Northwest Minnesota Water Festival for fourth-grade students. West Polk SWCD will also use the WCA Program to promote the preservation & enhancement of the natural resources within the Glacial Lake Agassiz Beach Ridge area as outlined in the Polk County Local Water Management Plan, Priority Concern 3.

The West Polk SWCD staff participated in the planning, organization and presenting of the Northwest Minnesota Water Festival. This program is a water resources based, hands-on educational opportunity for fourth grade students throughout northwest Minnesota. The learning stations that the West Polk staff conducted was an activity that related the gain or loss of wetlands related to flooding. Over the course of the two-day festival, over 630 students and their teachers participated. The West Polk SWCD staff set-up and maintains several informational pages on the District website related to wetlands, WCA regulations and resources. The District published two newsletters during the reporting year. Each newsletter contained at least one article or notice related to wetland issues and/or regulation.

31. Project Name: '10 WCA Administrative Activities (West Polk)

Module: Initiative

Reported By: Polk, West SWCD

Initiative Type: Admin/Coordination

Initiative Year: 2010

Description:

Actual Results:

The West Polk SWCD is the LGU for the Wetland Conservation Act in West Polk County. As the LGU, West Polk SWCD will employ a person to administer and provide technical assistance related to implementing the Wetland Conservation Act in accordance to Minnesota Rule 8420, as amended. Administrative activities will include, but are not limited to: maintaining a positive relationship with federal, state & county agencies, as well as townships, businesses, the general public and any other entity working with the WCA process; respond to WCA inquiries, requests and applications in accordance with the timelines set-up within the WCA rules; maintain accurate records; participate in Project Teams as needed or requested as well as be an active participant of other groups who's focus is the preservation, conservation and restoration of wetlands and other natural resource concerns in West Polk County.

The West Polk SWCD employed one full-time employee to administer the Minnesota Wetland Conservation Act as accorded by statute for the reporting year 2009. This staff administered the program by participating in relevant Project Teams (Red Lake Watershed, Middle-Snake-Tamarac Watershed, Sand Hill Watershed); responding to WCA program inquiries as well as general wetland questions from both public and agency personnel. The staff also submitted articles for publication in the District Newsletter and District website. Staff also maintained accurate and current data records and worked within the timelines set by MN 15.99.
